A Campus of Southern Institute of Technology

WOOL CLIP GRADING TRAINING SCHEME

Become an accredited wool grader in the industry. Learn how to grade wool consistently across the table and board by identifying different wool characteristics. Learn what wool to remove that does not match the bulk of the wool clip according to industry requirements, carry out fleece/oddments identification procedures and confirm, monitor and review wool preparation according to grower and industry requirements.

You will also learn to coordinate the quality of team output through balancing accuracy, speed and tidiness and complete the necessary documentation required in a wool harvesting operation.

Course Content

31978 Grade wool clip in a wool harvesting operation

International Students

Course Fees \$1000.00

Application criteria apply, please visit our [website](#) for more info
