

## PROVISIONAL STORE CLASSER REQUEST FOR STORE MANAGEMENT INSPECTION

To be completed and sent by Classer to NZWCA Registrar

[reg@woolclassers.org.nz](mailto:reg@woolclassers.org.nz)

or ph 027 4743 104 (please give at least 10 days' notice)

### NOTE:

- *Provisional store classer inspection for a registration prefix upgrade is a two-step process. Criteria for both inspections must be per the NZWCA forms, available on the website [www.woolclassers.org.nz](http://www.woolclassers.org.nz) in the “Forms” tab.*
- *Appointed store classer **store management** inspector to make the face-to-face store inspection (using this store management inspection form, not the store classing one).*
- *Appointed store classer **classing** inspector – most likely to be a valuer or buyer – may be a different person to the store management inspector.*
- *An inspector, a person with proven store classing and/or wool valuing or buying experience, appointed by NZWCA Registrar, must not be employed by the same company as the classer seeking upgrade.*
- *For the wool store classing inspection, once an inspector is identified for a store classer applicant, it will be the applicant's responsibility to communicate with their inspector what lines they are putting up for inspection and what sale the lines will be in. This may be spread over several sales.*

**NOTE: Applicant must vouch that all wool in lines they are putting up for inspection has only been classed by them.**

<b>Store Classer Name:</b>	
<b>Store Classer Registration No:</b>	
<b>Address:</b>	
<b>Phone No:</b>
